SUMMARY

Senior English–Hindi language specialist with 5+ years in high-volume localization, linguistic quality assurance (LQA) and transcreation, including three years as lead Hindi linguist on Apple Siri. Designed and implemented a gender-neutral Hindi register for Siri while preserving Apple’s brand voice, and now works across AI and LLM workflows — media annotation, model output evaluation and prompt engineering — alongside traditional localization. Trilingual in Hindi, English and Urdu.

CORE SKILLS

Localization & Quality: Translation, transcreation, linguistic quality assurance, terminology management, style guide development, editing, proofreading, copywriting

CAT & Production Tools: SDL Trados, MemoQ, Phrase, Loft 2.0 (transcription), Articulate 360, etc

AI & Data: Media annotation and labelling, LLM output evaluation, AI/LLM training dataset preparation, prompt engineering for text and image generation

Technical: Python scripting, Pandas, workflow automation

Domains: Media, education, finance, e-commerce, technology

Coordination: Asana, Slack, vendor and freelancer management, deadline planning

PROFESSIONAL EXPERIENCE

Fidel Tech

Senior Hindi Expert

Pune, Maharashtra / India

April 2022 – Present

Lead Hindi linguist on Apple accounts, covering Siri, Help documentation and software localization, with additional localization work for Reddit. Awarded a Certificate of Appreciation by the Vice President in the first year.

Apple Siri

- Lead the Hindi team at Fideltech, coordinating linguists and delivering high quality translations.
- Designed and implemented a gender-neutral Hindi register for Siri, resolving grammatical gender constraints in verbs and adjectives while preserving Apple’s established tone - adopted as the reference style for Hindi voice output.
- Documented tone, register and terminology standards, creating a style framework used across the Hindi team to keep output consistent between contributors.
- Transcreated prompts and responses for the Indian user base, adapting idiom and cultural reference rather than translating literally.
- Partnered with Apple project managers, language leads and engineers to triage localization bugs, including string-level implementation issues in the build, reducing recurring defects across releases.

Apple Help Documentation & Software

- Translated and localized Help documentation in SDL Trados and Client’s internal tooling, maintaining an LQA pass rate of 99%.
- Held terminology and formatting consistency across a growing documentation set through repeated OS release cycles.
- Delivered urgent release builds without waiving quality gates.

Quest Alliance

Project Manager & Reviewer (concurrent contract engagement)

Bengaluru, Karnataka / India

June 2023 – April 2024

- Managed 6-7 third-party translators and content creators across 50 digital courses and scripts, owning scheduling, quality sign-off and final delivery.
- Reviewed and corrected translations and assembled course builds in Articulate 360 prior to release.

- Delivered every course within the agreed timeline with no post-release quality escalations.

BankSathi

Hindi Expert

Bengaluru, Karnataka / India

September 2021 – April 2022

- Built the Hindi version of the company website from scratch and maintained it through ongoing content releases, tailoring copy to Hindi-speaking users rather than mirroring the English source.
- Localized and tested in-app content end to end, catching and correcting errors pre-release so financial guidance read clearly and naturally.
- Translated confidential banking reports, financial statements and legal documents under strict accuracy and confidentiality requirements.

StudyIQ

Hindi Expert

Gurugram, Haryana / India

August 2019 – September 2021

- Produced Hindi educational content for UPSC and SSC aspirants across the learning platform, the Pocket News app and the YouTube channel.
- Localized daily current-affairs items for Pocket News, delivering approximately 200 pieces per week to a fixed publishing deadline.
- Adapted infographics into Hindi, restructuring dense exam material so it stayed readable within the visual layout.
- Researched and fact-checked source material against reliable sources, working with design and editorial teams to protect consistency and academic integrity.
